SPECIFICATION

Fabric

- Single colour upholstery is available
- 2 colour upholstery is offered with no additional charges

Steelwork

- The steelwork is finished in black as standard
- Other colours are available but a surcharge may apply

Table-top

- The table top is furniture grade plywood finished with a White/Grey/Black HPL as standard
- Edge banded MDF is also available
- Other colours are available but a surcharge may apply

Lights

- LED lights can be built in to the roof

Power

- Power units can be built into the seatboxes

MANUFACTURE

Made in Birmingham

The frame is constructed using beech and birch timber combined with birch plywood - fixed using PVA glue.

The product is then covered with a combination of recon-foam (recycled) and a high quality polyurethane foam.

Upholstered using top-stitch details with the option of a contrasting show thread.

The table top is furniture grade birch plywood with a HPL face and a lacquered exposed edge detail.

The steelwork is powdercoated to a gloss black finish.
