CLUB CHAIR

Elegant and comfortably upholstered, the Club Chairs offer attractive seating for communicative, relaxed work. The rounded, conical frame has a distinct shape. Especially used in reception lounges, waiting areas, as well as in management offices and classic communication rooms.

Design: Pearson Lloyd

bene

INSPIRING OFFICES. SINCE 1790.

PRODUCT DESCRIPTION

The chair is available as a Club Chair or Club Chair with swivel base.

❶ **Seat + back:** Metal frame substructure, surrounded by polyurethane foam and covered with fabric, imitation leather or leather.
Covers always come with double stitching.
Optionally with flame-resistant foam.
Seat and backrest can be designed separately.

❷ **Frame:** Fully upholstered or with swivel base.
Full upholstery: covered with fabric or leather.
Swivel base: 4-star, made of polished die-cast aluminium, powder-coated in white or matt black, with plastic or felt glides, including return mechanism. Chrome-plated pneumatic spring.

SUSTAINABILITY

From the specifications stage through to series production, ecological requirements are always an important factor in the development process. This includes selecting environmentally compatible materials, such as CoC-certified timbers from sustainably managed forests, using recycled materials and increasing the use of renewable raw materials. In order to guarantee a high recyclability standard for our products, we avoid composites as much as possible and develop furniture that allows for disassembly.
Labelling of materials, their ability to be repaired, and a long service life for the components used, are other important requirements for product design. But the ability to disassemble and recycle the products at the end of their lives are also important criteria.

SUSTAINABLE RAW-MATERIALS

At Bene, the following materials are used as a matter of course:
- chipboards low in formaldehyde
- glues low in formaldehyde
- water-based varnish systems
- recyclable materials
- materials with a high recycling share
- PVC-free synthetics

Bene garantiert, dass seine Produkte frei sind von:
- CMR-Stoffen
- halogenierten Lösungsmitteln in Kunststoffen
- chlorierten Kohlenwasserstoffen
- Schwermetallpigmenten
- Materialien mit Azo-Farbstoffen
- Beschichtungen mit biozider Wirkung (zum Beispiel Holzschutzmittel, Pestizide)

CONTRIBUTION TO BUILDING CERTIFICATIONS

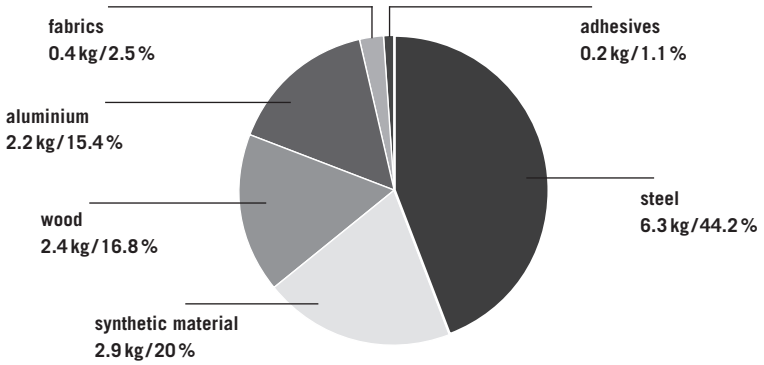
In the context of ecological building certification, design systems such as furniture and dividing walls help to achieve a good result and a higher score.
Bene's products make a contribution towards the LEED, WELL Building Standard, DGNB, BREEAM, etc. certifications. Criteria include, for example, environmental product declarations, indoor air quality, acoustics and convertibility.

CLUB CHAIR

Example configuration
- swivel base
- synthetic fibres
- total weight 14.25 kg

Environmental key figures
- 98.9 % sortable by type
- 80 % recyclable
- 19.3 % of contents are renewable raw materials
- 32.3 % recycled production materials

Materials



On request, Environmental Product Declarations (EPD, LCA) – at Bene we call them Life Cycle Data Sheets – can be provided for all standard product configurations.

A list of product-specific certificates and design awards can be found on the Bene product website:
